

E-WASTE TREATMENT PLANT (EWTP)

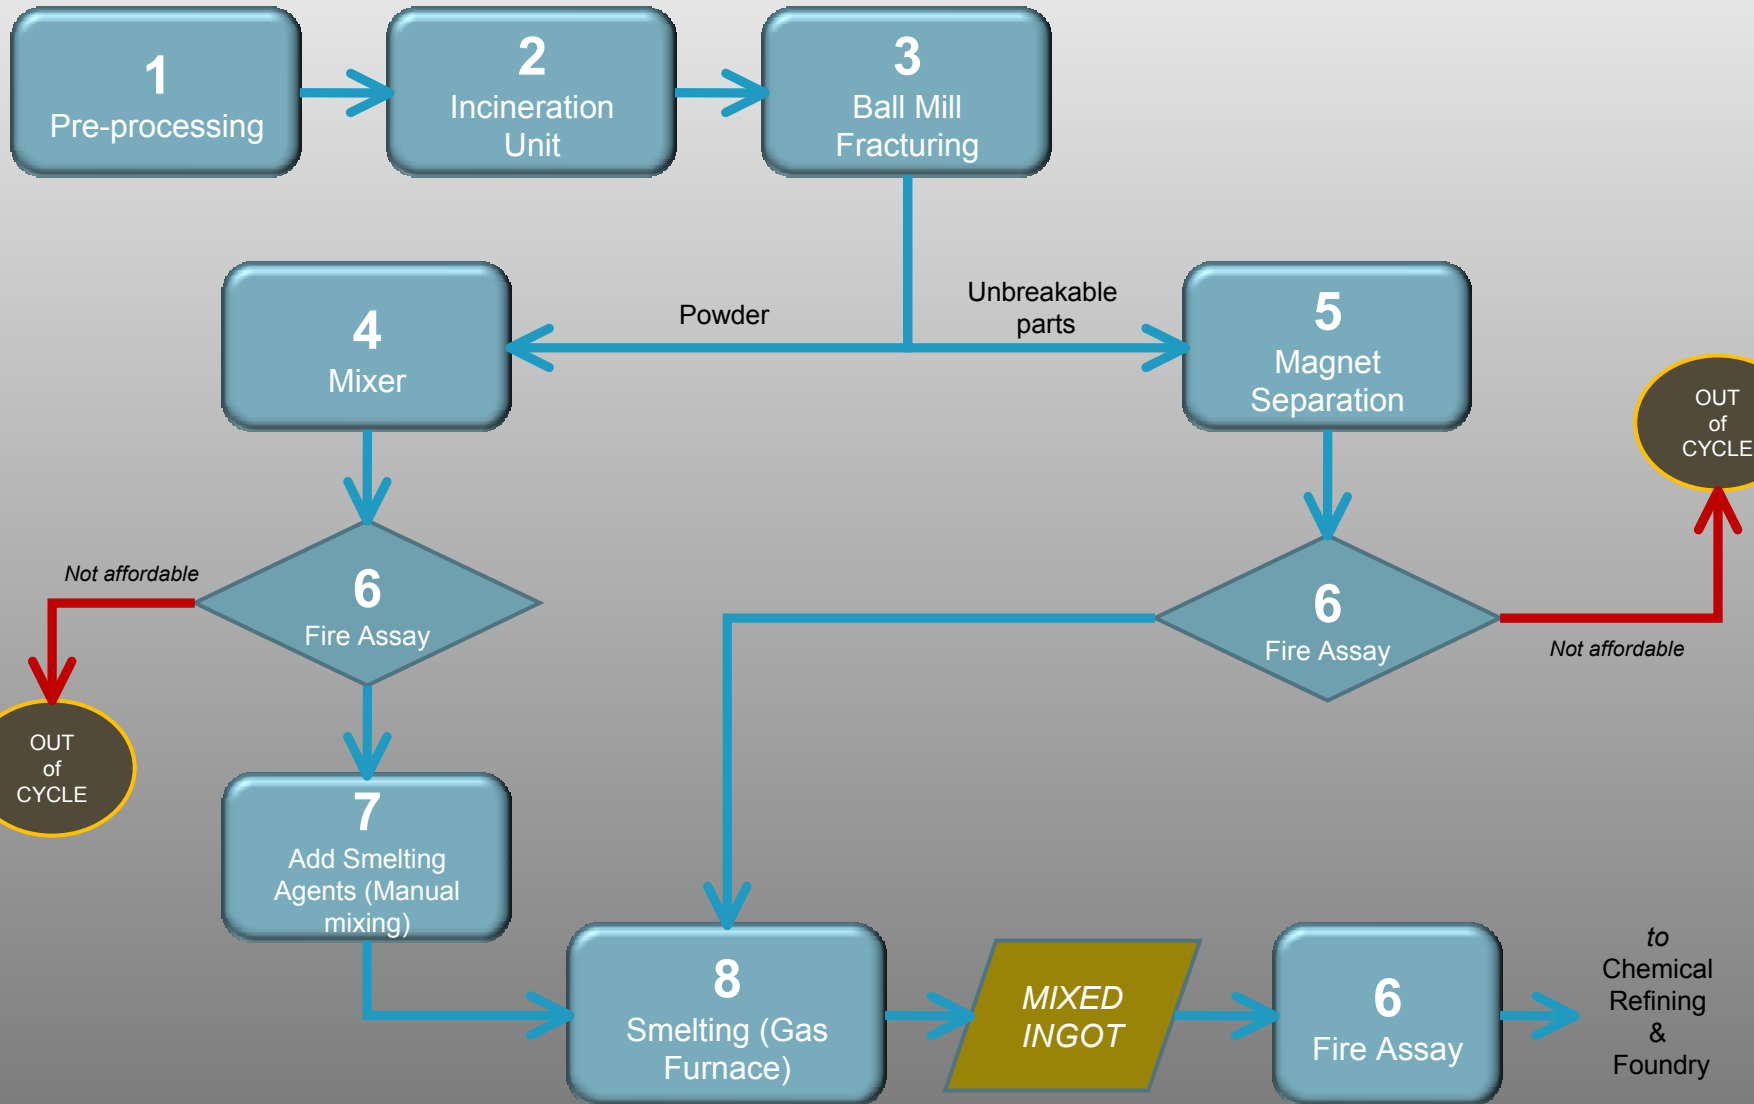

Main Target:

- ⦿ How EWTP will work
- ⦿ What EWTP could do

Overview

- ◎ EWTP has two main steps:
 - Pre-processing / Analysis
 - Sub-Target:
 - Obtain mixed ingots to sent to chemical refining
 - Knowing which metals are present and in which percentages they are constituted (*Au, Ag, Pt, Pd, Rh, Cu, other interested*)
 - Chemical refining / Foundry
 - Sub-Target:
 - Separate desired metal from mixed ingot
 - Prepare pure metal obtained for selling

Pre-processing / Analysis

Chemical refining / Foundry
